

# London Structural Biology Club

**3 pm, Tuesday 12 June 2007**

**'Structure and mechanism of DNA replication origin recognition in archaea'**

**Dr Dale Wigley**

Clare Hall Laboratories, Cancer Research UK

**'The role of Argonaute proteins in RNA silencing'**

**Dr James Parker**

Department of Biochemistry, Oxford University

**'Mass spectrometry on intact protein:RNA complexes - flight of the ribosome'**

**Dr Hortense Videler**

Department of Chemistry, Cambridge University

**'G-quadruplex motifs as targets for small molecule ligands'**

**Dr Gary Parkinson**

The School of Pharmacy, University of London

**Time: 3-5pm**

**Followed by Pizza & refreshments**

**Location: Clore Lecture Theatre, Birkbeck, Malet Street**

**All are welcome**
