

London Structural Biology Club meeting

‘Simulations of membrane proteins in different environments’

Pete Bond | Oxford

‘Structural basis of pore formation by the bacterial toxin Pneumolysin’

Sarah Tilley | Birkbeck

‘Expressing crystallisable forms of mammalian glycoproteins’

Ed Evans | OPPF

‘Structural insights into the energy coupling activity of enhancer binding proteins’

Xiaodong Zhang | Imperial College London

15.00 Tuesday 8 March

Followed by beer & pizza refreshments

Venue: Lecture Theatre B01

Clare Management Centre | Birkbeck

All are welcome
